

Fact Sheet: Growth Enhancer Organic Seaweed Fertilizer

Overview

Growth Enhancer is a premium range of 100% organic seaweed-based plant stimulants, developed to boost plant health, increase yield, and enhance soil vitality. Sourced from high-quality seaweed species and spray-dried into powder form, these products are suitable for all types of cultivation, including soil-based farming, hydroponics, and drip irrigation systems.

Product Variants

1. Kappa A

- **Source:** *Kappaphycus Alvarezii*
- **Origin:** Imported from Malaysia
- **Form:** Spray-dried powder
- **Key Content:**
 - 100% Organic Seaweed Extract
 - 20% Potash (derived from seaweed)
 - Rich in Macro & Micro Minerals

2. Edulis A

- **Source:** *Gracilaria Edulis*
- **Origin:** Harvested from India
- **Form:** Spray-dried powder
- **Key Content:**
 - 100% Organic Seaweed Extract
 - 20% Potash (derived from seaweed)
 - Rich in Macro & Micro Minerals

3. Edulis R

- **Source:** *Gracilaria Edulis*
- **Origin:** Harvested from India
- **Form:** Spray-dried powder
- **Key Content:**
 - 100% Organic Seaweed Extract
 - 14% Potash (derived from seaweed)
 - Fortified with Organic Nitrogen (N)
 - Rich in Macro & Micro Minerals

Usage Instructions

- **Dosage:**
 - 5 grams per liter of water
 - 150–200 grams per acre
- **Application Frequency:**
 - Once a week for one month
- **Methods of Application:**
 - Foliar Spray
 - Drip Irrigation
 - Soil Drenching (around plant roots)
 - Hydroponic Systems
- **Optional Mix:**
 - Combine all three variants (2 grams each) per liter for a balanced formulation

Benefits of Growth Enhancer Seaweed Fertilizers

- ✓ **Promotes Vigorous Plant Growth**
- ✓ **Increases Fruit and Flower Yields (30–50%)**
- ✓ **Improves Soil Health and Microbial Activity**
- ✓ **Enhances Resistance to Stress, Disease & Drought**
- ✓ **Safe, Sustainable, and Eco-Friendly**
- ✓ **Ideal for Fruiting Plants and Trees**
